

9) HOW QUICKLY CAN I ADVANCE TO HIGHER INCOME LEVELS?

That is entirely up to you! Everyone has their own individual pace, so based on the pace you choose to build your business, your income grows accordingly. Our first level, Unit Leader, paid an average of \$18,000 last year. This is considered a very part-time position and is attainable in 3-6 months of business for most! Then our middle leadership level, Group Leader, paid an average of \$36,000, which is attainable in 1-2 years for most! One of our top positions pays over \$245,000 on average, are attainable in 3-4 years for most (although some have done this sooner). What could YOU do with \$245,000 per year????

10) WHAT IS THE WORST THING THAT COULD HAPPEN IF I DO TRY THIS?

The worst thing that could happen is NOT trying it! You have the perfect opportunity to be your own boss without risk or investment. You earn income from day 1 and even if you decide to stop, you will be ahead of the game because you will have earned some great income and product, as well as have met new friends. Most importantly, what if you don't try it, and it turns out that it would have been the opportunity you have always wished for—an opportunity to earn unlimited income, doing something that is fun and rewarding and on your own! *This is your chance to control your destiny. This does not often happen working for someone else. What is there to lose? NOTHING, only everything to gain!*
